The wedding cake is the focal point of your reception. It is second only to the bride when you think of weddings. Every bride wants a cake that she can be proud to serve.

At “*The Cake Shoppe*”, we work with the bride to help her design a wedding cake that is reflective of her personality. We work with the bride on the style, flavors, colors and designs. Our website shows several of the cakes we have done to help you get ideas.

Make sure you choose a reputable business so you will not have to worry about last minute details. “*The Cake Shoppe*” has been in business since 1977 and we take care of coordinating the cake set-up time with the reception site and your florist.

The first Saturday of every month, we have cake samples for you to try, between 10:30-2:00.

Please stop in and try us.
